

1. Table Creation Proof

Run:

```
DESC Defect;
```

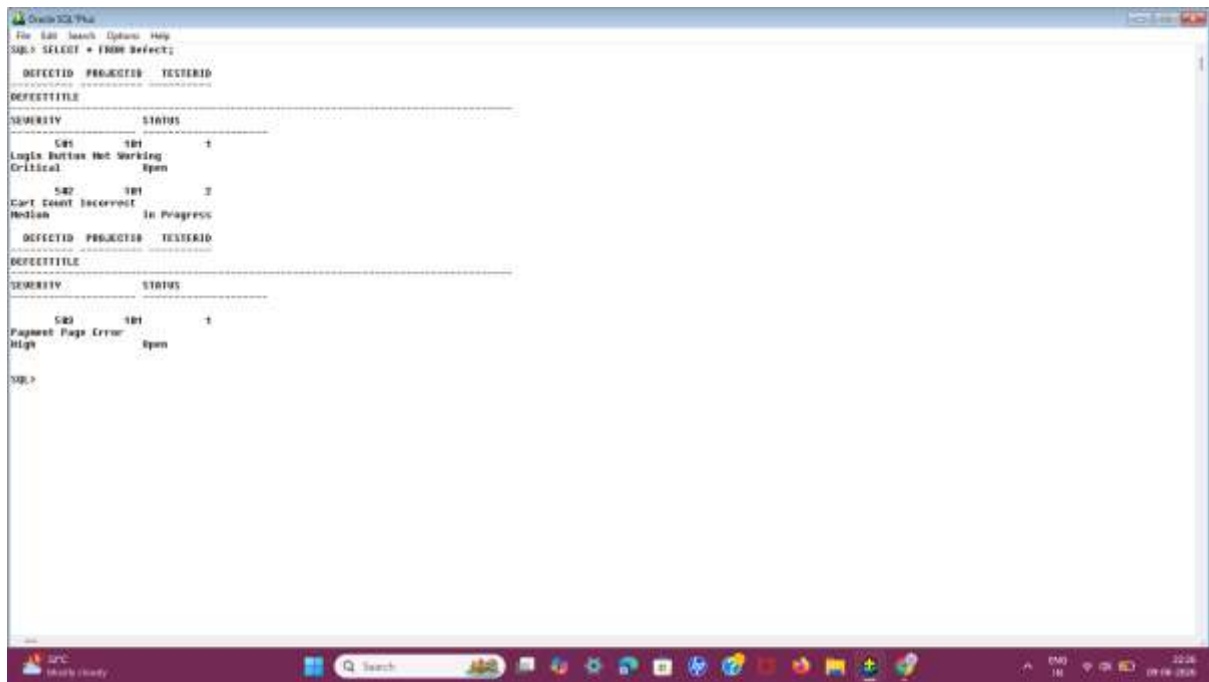

- Schema design
- Columns

👉 Shows: Database design skills

2. Sample Data Proof

Run:

```
SELECT * FROM Defect;
```

🖥️ Shows:

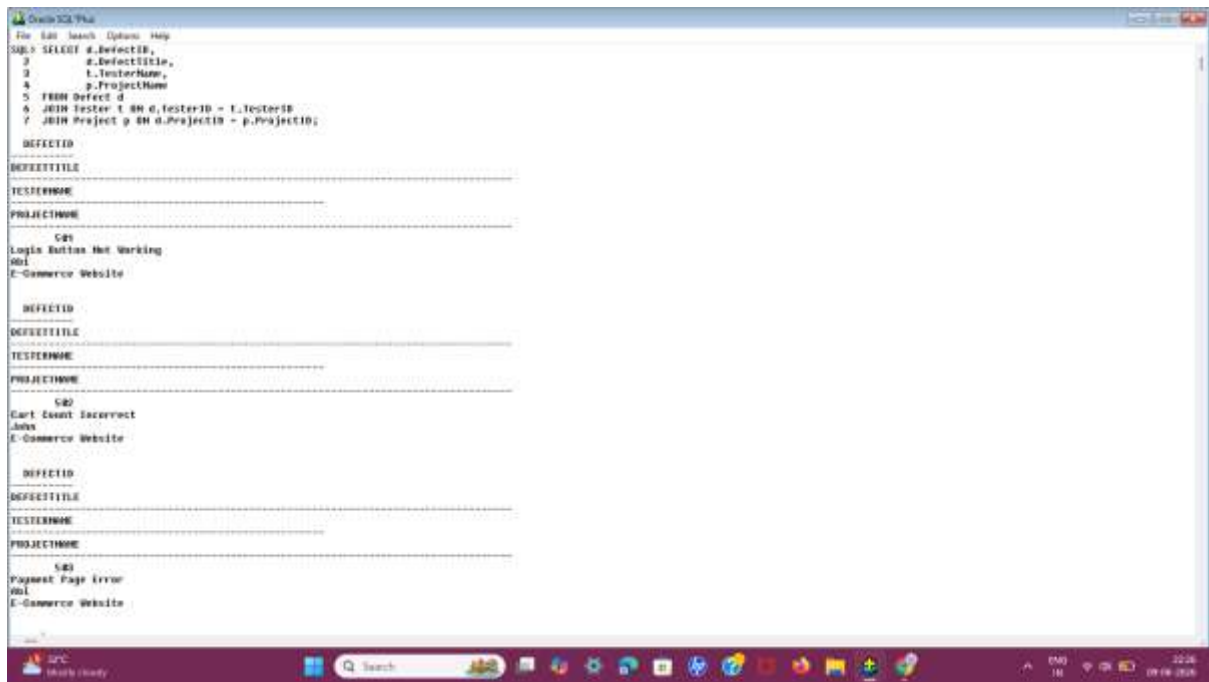

- Real test data
- Defects inserted

👉 Shows: Data handling

3. JOIN Output (MOST IMPORTANT ★ ★ ★)

Run:

```
SELECT d.DefectID,
       d.DefectTitle,
       t.TesterName,
       p.ProjectName
FROM Defect d
JOIN Tester t ON d.TesterID = t.TesterID
JOIN Project p ON d.ProjectID = p.ProjectID;
```

Shows:

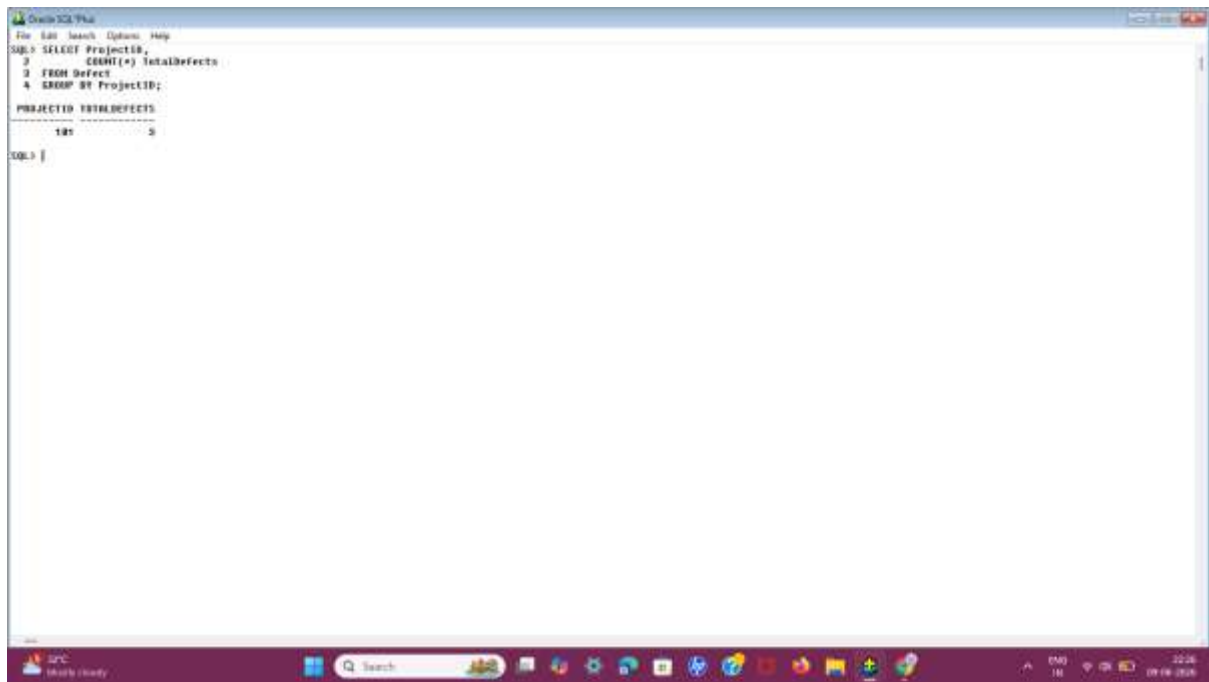

- Real QA relationship mapping

👉 This is **TOP interview screenshot**

4. GROUP BY Report

Run:

```
SELECT ProjectID,
       COUNT(*) TotalDefects
FROM Defect
GROUP BY ProjectID;
```

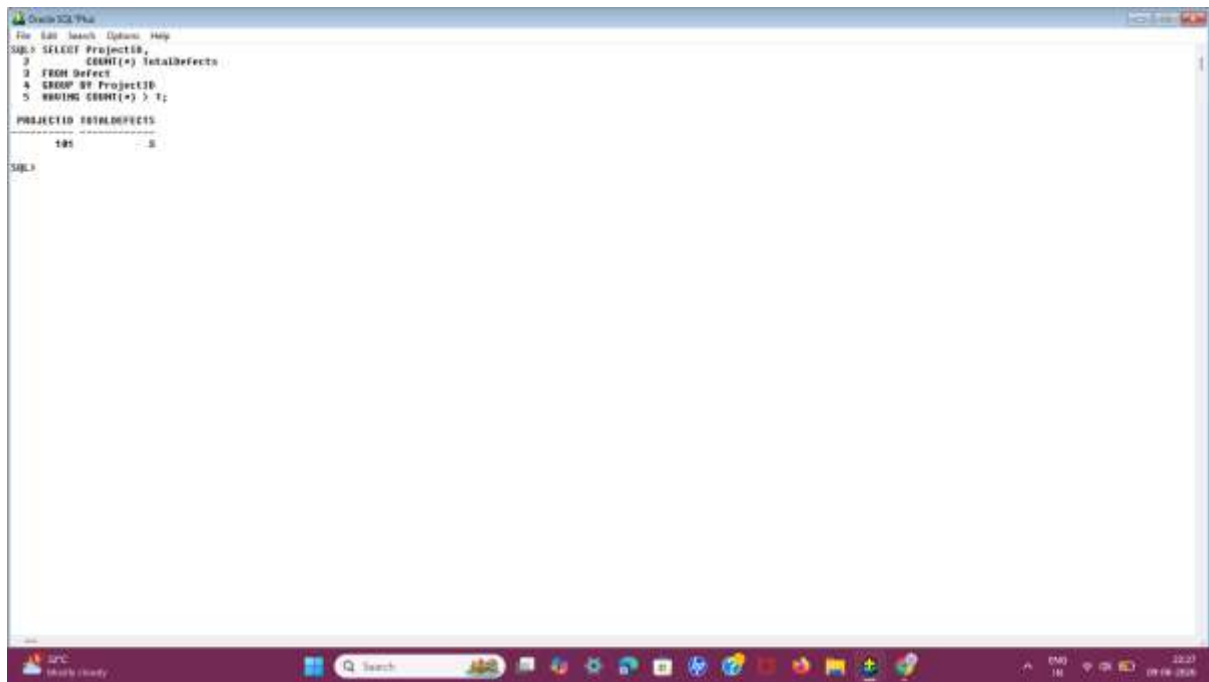

🖥️ Shows:

- QA reporting style output

👉 Shows: Analytics skill

5. HAVING Filter Output

```
SELECT ProjectID,
       COUNT(*) TotalDefects
FROM Defect
GROUP BY ProjectID
HAVING COUNT(*) > 1;
```

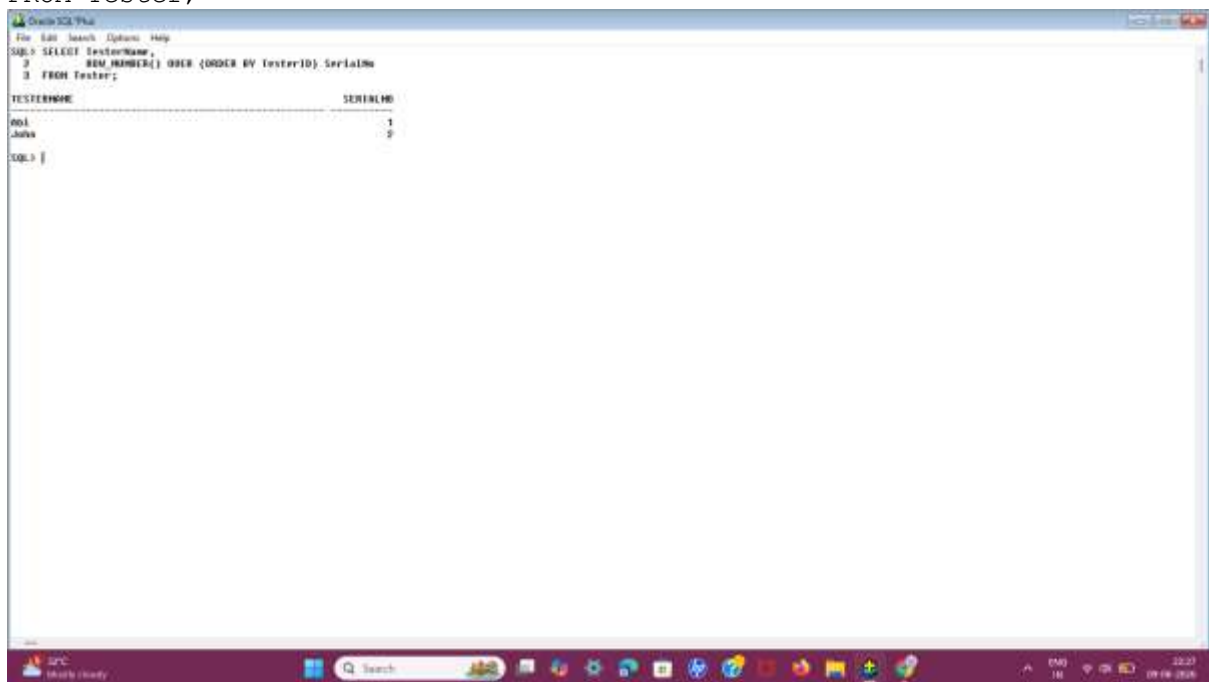

Shows:

- Real filtering logic

6. WINDOW FUNCTION Output ★

```
SELECT TesterName,
       ROW_NUMBER() OVER (ORDER BY TesterID) SerialNo
FROM Tester;
```

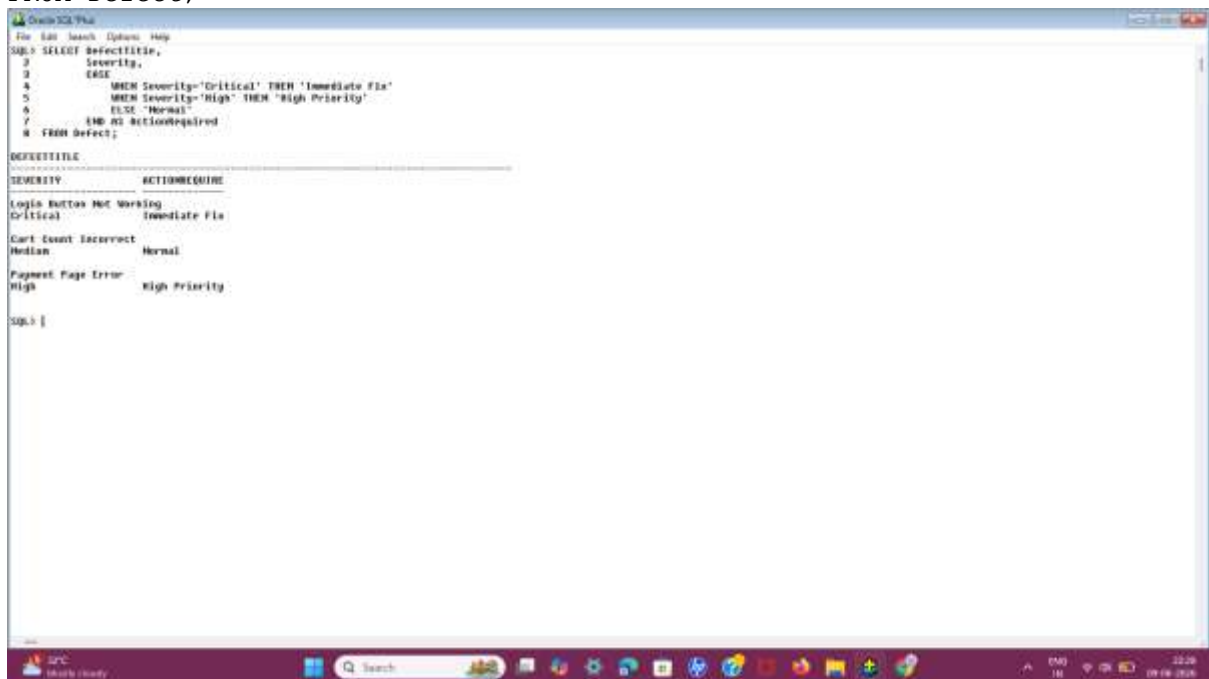

📺 Shows:

- Advanced SQL skill

👉 Very impressive in interviews

7. CASE Output

```
SELECT DefectTitle,  
       Severity,  
       CASE  
           WHEN Severity='Critical' THEN 'Immediate Fix'  
           WHEN Severity='High' THEN 'High Priority'  
           ELSE 'Normal'  
       END AS ActionRequired  
FROM Defect;
```

📺 Shows:

- Real decision logic

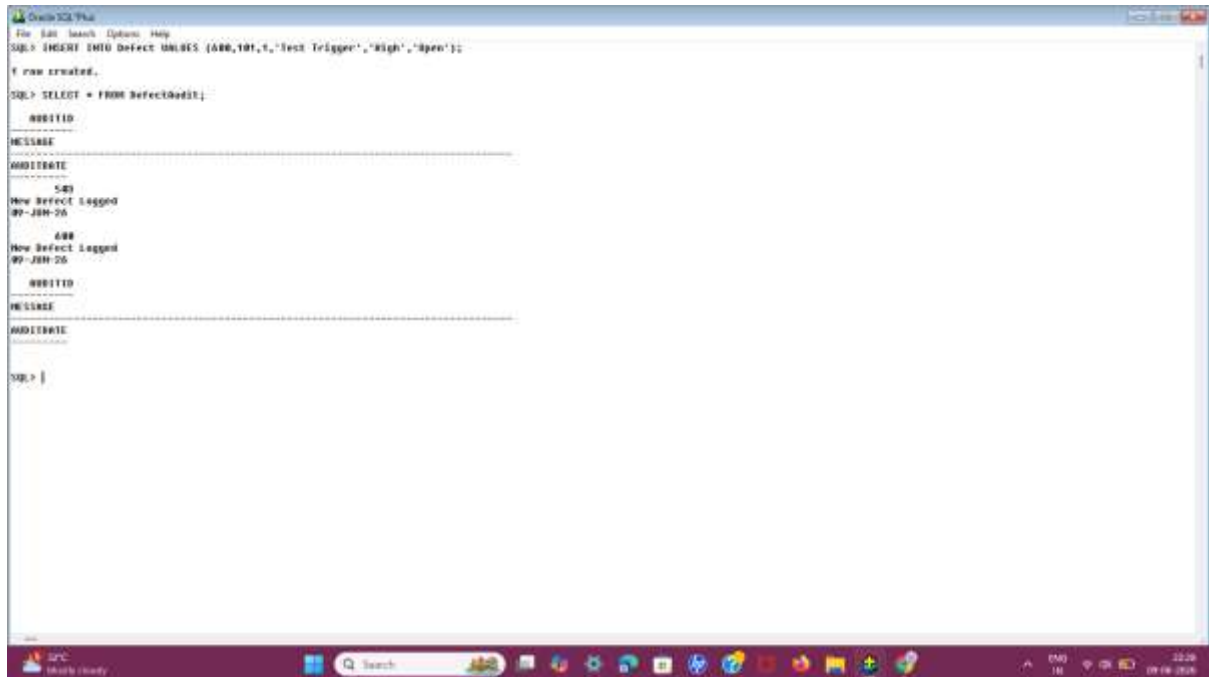

8. TRIGGER Proof ★ (VERY IMPORTANT)

Step 1:

```
INSERT INTO Defect VALUES (600,101,1,'Test Trigger','High','Open');
```

Step 2:

```
SELECT * FROM DefectAudit;
```

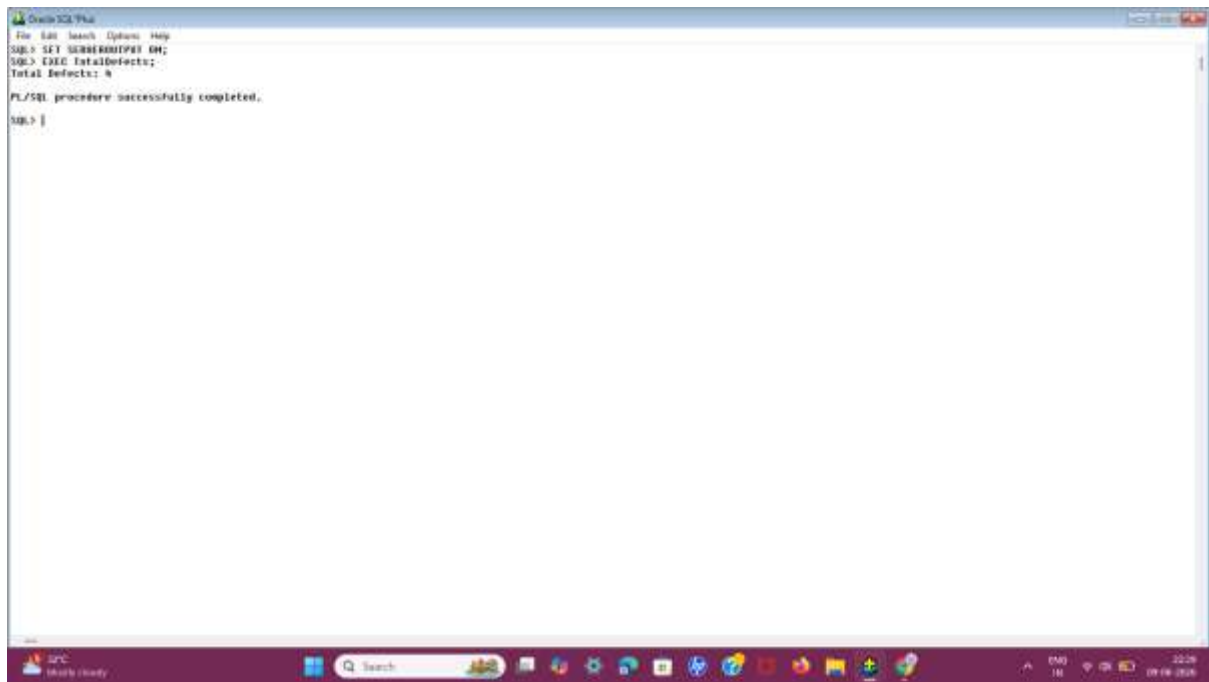

📺 Shows:

- Automatic execution
- Real database automation

👉 THIS IS GOLD FOR QA INTERVIEWS

9. PROCEDURE Output

```
SET SERVEROUTPUT ON;
EXEC TotalDefects;
```

The screenshot shows a SQL*Plus window with the following text:

```
SQL> SET SERVEROUTPUT ON;  
SQL> EXEC totalDefects;  
Total Defects: 4  
  
PL/SQL procedure successfully completed.  
SQL> |
```

The window has a menu bar with 'File', 'Edit', 'Search', 'Options', and 'Help'. The Windows taskbar at the bottom shows the date and time as 22:26 on 09/09/2025.

📷 Shows:

- PL/SQL execution
